

Conflicted Normalcy Obama Abyss Burkett

**ghost riders of baghdad - muse.jhu** - graham claimed that obama pulled the troops out too soon. never mind that the last american soldiers didn't leave iraq until mid-december 2011. that's eight years and eight months. in other words, 2.4 times longer than in world war ii, or about as long as combined u.s. involvement in both world wars and the civil war. quite a commitment.
